

Hit & Run

This pony was knocked down and left to die, by a callous driver more worried about their car than the immense pain and suffering just inflicted on this innocent creature.

WE NEED YOUR HELP

**PLEASE DISPLAY THIS POSTER WHERE IT CAN
BE WIDELY SEEN BY ALL YOUR STAFF.**

If a vehicle is brought to your premises for repair and you either hear of it or have reason to suspect it having been involved in an accident with livestock on the Forest (be it a pony, cow, donkey, pig or sheep), please report it in as much detail as possible to either the Police or the Verderers of the New Forest without delay. You can even remain anonymous if you wish.

There is a reward of up to £1,000 for information leading to the successful prosecution of any driver convicted of a hit & run accident involving a Forest animal.

In 2010 there were 92 animals injured or killed on our Forest roads and 35 incidents were hit & run. In May 2011 there were 4 hit & run accidents in a fortnight, **and this September has so far seen another 3 in one week.**

Police: 0845 045 4545

Verderers Office: 02380 282052
